OUR T-Shirts:-

Our T-shirts are quite unique because we handle every step of the manufacturing process ourselves and then "we make the fabric ourselves" and then use "latest machines" to create the T-shirts. Our focus is on quality, & we offer our products directly to consumers at "affordable prices" because we are "manufacturers".

"OUR MANUFACTURING PROCESS FEATURES" :-

From thread to fabric to T-shirt production :- "we make the fabric from scratch, which is a unique selling point for us. The fabric is then used to create the T-shirt using modern machinery."

DESIGNING :-

We offer both ^{the} classical & modern designs, our designing team ^{will} create all designs in house, ensuring that our products have creative & uniqueness.

COMPETITIVE PRICING :-

Since we are the "manufacturers", we offer our customers "direct sales at the lowest prices."

We supply T-shirts to "Large Malls as well, ~~and~~ where they sell at the higher price, but our "direct customers" get the same high quality products at "much cheaper rates."

QUALITY :-

We use "high quality" fabrics which is one of the best in the market. Additionally, we import "high quality" of fabric from China.
